

PRODUCT INFORMATION

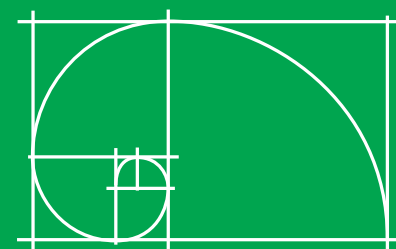

MENAQUINONE-7 **MK -7**

-  Vesta Ingredients has been a leader in the nutraceutical industry for over 15 years. The superior quality of Vesta Brand raw ingredients ensures the success of our clientele.
-  Vesta Menaquinone-7 (known as Vitamin K2: MK-7) is a highly bioavailable extract of Natto, a traditional food dish. Derived from fermented soybeans, a significant amount of MK-7 is produced during the fermentation process. Another one of the most commonly found forms of Vitamin K is Vitamin K1 and is generally found in food products. However, Vitamin K2: MK-7 from Natto is absorbed ten times better than Vitamin K1 from food products.
-  MK-7 functions mainly as a co-factor for the enzyme gamma- glutamyl-carboxylase, which is responsible for the carboxylation and binding of calcium to specific bone proteins. Research shows that MK-7 regulates calcium in the arteries as well. Thus, MK-7 ultimately supports heart health AND bone health at the same time.

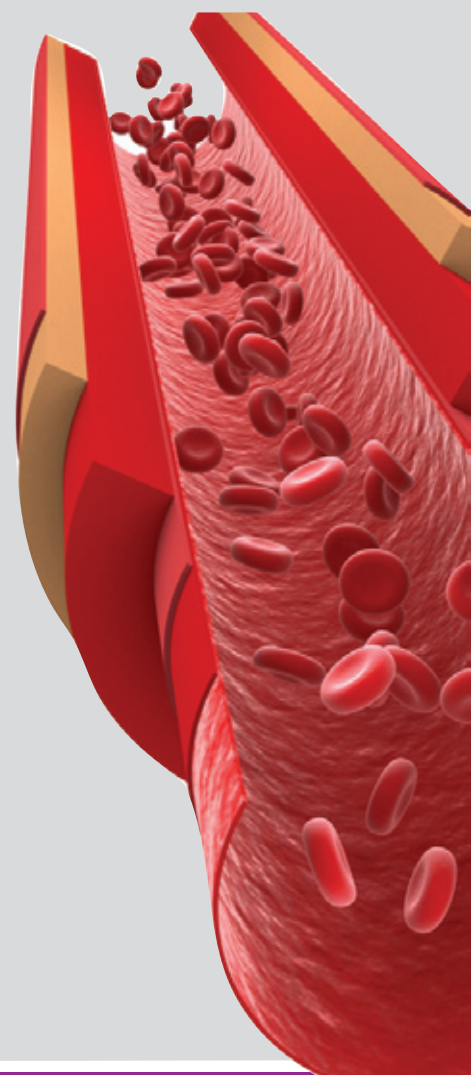

BENEFITS OF NATTOMK-7™

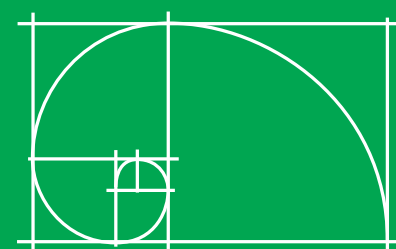

- Natural MK-7 is essential for yielding high quality and efficacy of finished product.
- Helps regulate calcium levels in bones and arteries
- Vitamin K2: MK-7 has the highest bioavailability and bioactivity of all Vitamin K vitamers.

Why is Vitamin K2: MK-7 necessary?

MK-7 regulates calcium through an amino acid that is part of the matrix gla protein (a calcium-regulating protein), which is dependent on MK-7 to function properly. If the protein does not contain enough MK-7, it will not be able to retain calcium through carboxylation.

Benefits of MK-7

MK-7 is unique because unlike synthetic vitamin K (such as K3) it displays no toxicity, and it does not concentrate in the liver. MK-7 helps promote cardiovascular system health and may help to maintain healthy bones and joints

How does MK-7 support healthy bones?

Bone mineral density is directly related to the amount of MK-7 that is present within the body.

PRODUCT INFORMATION

Appearance: Powder

Odor/ Taste: Characteristic

USES

- Dietary supplement
- Capsules/Tablets/Softgels

PACKAGING AND STORAGE

- Store in a cool dry place
- Do not freeze
- Keep away from strong direct light
- Package Unit: 1 - 5 Kg
